

PSREdit310/PSRCtrl310 License Agreement

By downloading and installing this software on your computer, you agree to the following:

1. PSREdit310 and PSRCtrl310 ("The Software") are the property of Michael Vander Veer, who retains all rights of ownership of the software.
2. You accept all liability for any issues that may arise with your computer due to the use, or misuse, of the software. While the author does not expect any issues that might cause damage to your computer, there may be circumstances where unforeseen issues exist due to a variety of possible causes.
3. The software author grants you a license to use a fully functional copy of the software for a period not to exceed 30 days starting from the first time the program is started on your computer. This trial period should be used to evaluate the suitability of the software for your particular situation. At the end of this 30 day trial period, you must purchase a license from the software author to continue using the software, or remove the software from your computer.
4. A purchased license permits you to use the software beyond the 30 day trial period. This license key will be valid for all future versions of the software. If new keys are required due to a change in the licensing system, or other unforeseen conditions, new license keys will be made available at no charge via the lost key recovery system on the PSREdit.com web site.
5. A purchased license key may be installed on up to two computers, provided that these computers are not used by any individual that is not a member of your immediate family.
6. When the software is used by a business as a service to program radios, each computer used for this purpose must be licensed separately. Installing the same license key in multiple computers in a business environment is not permitted.
